Objektbeschreibung

Located in one of Vienna's most dynamic and sought-after areas, just one minute from Vienna's Central Station, this exceptional residential development has recently been completed, seamlessly combining modern living comfort, premium architecture, and an urban lifestyle at the highest level.

The exclusive building comprises 80 freehold apartments, offering living spaces ranging from approximately 38 m² to 180 m². Each residence impresses with intelligently designed layouts, generous spatial concepts, and a level of finish that meets the most discerning expectations. Nearly every apartment features its own private outdoor space – from sun-drenched balconies and spacious terraces to elegant private gardens – extending the living experience outdoors and creating an outstanding quality of life. Particular attention has been given to high-quality materials and refined design. The living areas are fitted with elegant parquet flooring, while the modern bathrooms come fully equipped with premium fittings, integrated lighting, spotlights, and practical mirrored cabinets, creating a sophisticated and timeless atmosphere.

Technologically, the building sets new standards. A state-of-the-art concrete core activation system ensures a comfortable indoor climate throughout the year. This is complemented by an intelligent smart home system, allowing convenient control of sun shading, lighting, and additional features upon request. The project also offers a highly family-friendly infrastructure, including stylishly designed indoor and outdoor children's and youth play areas, creating spaces for interaction, leisure, and community within the residence.

This high-quality new development combines a prime location, timeless architecture, and innovative technology to deliver an exceptional living experience in the vibrant and up-and-coming district surrounding Vienna's Central Station.

The residences on the 6th and 7th floors of LAXURY can be individually completed according to your personal preferences. The project itself has already been fully completed — however, you still have the unique opportunity to choose from a selection of exclusive interior finishes, including parquet flooring and bathroom design options. Your selected finish package will be completed for you free of charge, allowing you to create a home perfectly tailored to your style and taste.
